JAZZ + FUNK + LATIN = JAZZAHEAD PICANTE

A very special project similar and in continuation to the former well known „Jazzahead“ Quintet.

„One More Once“ , the titlesong of the Michel Camilo production might as well serve as a slogan for this project of Heinz von Hermann. Is this year his 80th birthday and being 61 years on stage as a professional musician.

This time the lineup consists of trombone and tenorsax/altoflute in the frontline, backed by a rhythmsection with additional percussion in order to focus more on latinamerican music.

Besides a „best of“ songs of his career and newly for this band written ones the repertoire includes new special arrangements from the books of Horace Silver, Stanley Turrentine, Michel Camilo, Clare Fisher, Tito Puente, the Jazz Crusaders....

Since all of the involved musicians are some of the best known ones in Vienna with other obligations as well, a certain change of personnell is unavoidable but this high level of music will always be maintained.
